Donec ut risus ut mauris convallis tincidunt. Suspendisse sit amet sapien eget nisi tincidunt luctus a eget nulla. Pellentesque vitae tortor sit amet justo dignissim luctus non sed odio. Praesent ac ante libero.

What is “supportive housing?”

Supportive housing is a community-based social service model that combines housing with other medical and social services to help homeless people living with mental illness gain stability, and live more productive lives. Supportive housing programs are used throughout the United States as a way to solve the dual challenges of homelessness and mental illness.
